

Muhammad Numan Saleem

Software Engineer

numansaleem2003@gmail.com | +923274623300 | Lahore, Pakistan
<https://www.linkedin.com/in/numan-saleem-4401b9289/> | <https://github.com/Saleem3500> | <https://numansaleem.netlify.app/>

Software Developer with 2+ years of hands-on experience in full-stack development, frontend engineering, and database-driven applications. Track record of delivering responsive, high-performance web solutions, including a 35% improvement in page load speed and a 30% reduction in data retrieval time. Skilled in React.js, Node.js, and SQL, with additional expertise in UI/UX design and RESTful API integration.

Technical Skills

HTML5 / CSS3, JavaScript ES6+, React.js, Bootstrap / Responsive Design, Node.js / Express.js, Oracle Apex, MongoDB, Next.js, AWS, PostgreSQL, NPM, Adobe Illustrator, Adobe Photoshop, Chrome DevTools, Postman, VS Code, Git / GitHub, Time Management, Problem Solving, Team Collaboration

Experience

Associate Software Developer

AdamDevSol

Aug 2025 – Present | Lahore

- Develop and maintain responsive full-stack web applications.
- Build reusable frontend components and integrate REST APIs.
- Work with Next.js, Node.js, TypeScript, PostgreSQL, and AWS.
- Collaborate with team members to deliver reliable, user-friendly solutions.

Associate Developer

Wizmen System

Feb 2024 – Jun 2025 | Lahore, Wapda Town

- Implemented activity-tracking mechanisms to analyze 50+ user behavior patterns for data-driven decision-making.
- Designed 10+ interactive dashboards and data visualizations using Oracle APEX.
- Reduced data retrieval time by 30% through dashboard and query optimization.
- Generated 10+ monthly analytical reports using SQL and Bootstrap Tables.

Full Stack Intern

Code Graphers

Apr 2023 – Jun 2023 | Lahore, Pakistan

- Integrated 8+ RESTful APIs, reducing server response time by 20%.
- Designed scalable database schemas for efficient data management across multiple modules.
- Developed and tested backend features using Node.js and Express.js.
- Collaborated with the development team to build and maintain scalable web applications.

Education

BS Computer Science

Superior University (Gold Campus)

Apr 2022 – Feb 2026 | Lahore, Raiwand | GPA: 3.0

Certifications:

Coding for Data (SQL) - Sololearn; Prompt Engineering - Sololearn; MERN Stack Developer - Theeta Training

Projects

OpenHouse

Apr 2026

Developed and maintained scalable backend services for the OpenHouse platform using Node.js, TypeScript, and PostgreSQL.

Built GraphQL APIs and implemented queries and mutations for efficient data access.

Managed database entities and schema changes using TypeORM and migrations.

Created and maintained Swagger/OpenAPI documentation for REST endpoints.

Technologies: Next.js, Tailwind, Express.js, PostgreSQL, GraphQL

Smart Digital Ad-Display System

Feb 2025

Engineered a real-time targeted advertising system using YOLO object detection for accurate human recognition

Developed dynamic ad-display logic that matched advertisements to detected user context and demographics

Integrated frontend and backend seamlessly using RESTful APIs for real-time data communication

Technologies: React.js, Node.js, YOLO, MySQL

Personal Portfolio Website

Apr 2025

Implemented responsive design principles ensuring a seamless experience across all screen sizes and devices

Optimized for ATS compatibility and professional project showcasing to maximize recruiter engagement

Technologies: React.js, Tailwind
